

GIS Developer/Consultant (Auckland)

Geographic Business Solutions Ltd (GBS) is currently seeking an experienced GIS developer / consultant to join its existing team of GIS professionals in Auckland (Mt Wellington).

GBS (www.gbs.co.nz) is a vendor independent GIS consulting company that offers a full range of GIS services to our clients. We're innovative problem solvers with an independent, free thinking approach, who enjoy their work and have fun with it. GBS primarily works with ESRI products and technologies and we are also an ESRI Business Partner.

GBS allocates time for research and development when possible during working hours and allocates time for professional development as/when required. We try to have fun in our working environment and can offer flexible working hours if staff have other commitments.

The position of GIS developer requires someone with at least 2 years commercial experience as a GIS developer / consultant, preferably with .NET and web development experience. Experience with a *selection* of the following will be a definite advantage:

Technologies

- ESRI Server/Desktop/Web Clients (such as Flex / Silverlight)
- SQL Server/Oracle/PostGis/PostGreSQL/MS Access
- ASP .Net
- Web Servers - IIS/Apache

Programming Languages

- C# and/or VB .Net
- Java Script
- Python/Ruby
- C++
- Flex (actionscript)

The role will involve the design, development and project management of GIS development projects. In addition, the successful applicant would provide support for existing projects and applications as well as support for individual components of projects – i.e. an integrated team approach. While the role will be primarily a developer's role, there will be non-development projects and general GIS consultancy tasks to be undertaken.

You will have a recognised tertiary qualification which is directly relevant to GIS (such as Geography, Surveying and Computer Science etc). Successful applicants will need to have excellent communication skills (both written and verbal). GBS is looking for an enthusiastic and motivated individual who can work equally well independently or as part of a team. You should be creative, have ideas, be able think on your feet, enjoy pressure and smile!

For an applicant with suitable experiences, skills and interests, there will be opportunities for business development roles to secure new clients and projects, and work with the company directors to continue to develop the business.

While applicants with the minimum level of skills will certainly be considered, we are looking for an experienced person who can manage projects from a design / architectural perspective, as well as program *and* consult with our clients.

GBS will only consider applicants who are currently eligible to work in New Zealand.

Please send your covering letter and CV to:
Geographic Business Solutions Ltd
P.O. Box 272-1387
Papakura 1703

Or email to: info@geobiz.co.nz

Applications close 8am Monday the 25th January 2010.
